Ref.No. feden/0033/23

Date: 31 January, 2023

To: whom it may Concern!

Dear Sirs/Madams,

It is my great pleasure to write this recommendation letter to **AsEph Engineering** up on management request. As a general manager to **Fedengua M.M.Y.M.S.C.**, I have had the opportunity to sign and agreement and followup all the operational activities of **AsEph Engineering**. As a result, my recommendation is a true witness based on my practical experience. Fedengua had launched a construction competition for a **3B+SB+G+20** mixed use building at Addis Ababa, Mexico Sengatera area. **AsEph Engineering** won the competition to construct the first two phases from 3B up to G+6 at a cost of **254,790,683.87** (Two Hundred Fifty Four Million Seven Hundred Ninety Thousand Six Hundred Eighty Three and 87/100) by supplying all materials, equipments and labor.

The Project has a special structure such as inclined Shear wall and new technology post tensioning. All the horizontal structures has no suspended beams. They are all flat **AsEph Engineering** was very capable to deploy all the necessary knowledge and skills in constructing those special structures which had brought financial and physical benefits for our share company. The new technology reduced costs in millions and load of the building to add three more floors.

Despite the fact that the site had tremendous challenges in terms of structural complexity, **AsEph Engineering** had successfully completed the construction of the project with an outstanding execution capacity with remarkable ethical standard. The Project is fully completed with a high work quality and also with expected time and budget. **AsEph Engineering** is therefore a highly recommended construction company.

I wish all the best for AsEph Engineering in its future endeavors!

With Regards,

ሙሉሙ ገበየሁ
